C56F

56lb Potato Peeler

The 56 lb (25 kg) peeling capacity of the C56F allows a full bag of potatoes to be handled in a single load. Not only does this save valuable time but guarantees that the machine is working to full capacity every time.

The "sea-wave" design of the peeling plate combined with a surface of smooth close mesh abrasive, gives a skin deep peeling action to ease the skin off. Perfect peeling with the minimum of waste and a finished potato with a smooth attractive appearance.

RUGGED CONSTRUCTION
Cast iron body and base is designed to take the knocks of everyday use.

HIGH PERFORMANCE
Peels a full bag of average quality potatoes in under 3 minutes.

CONVENIENCE OF SITING
The peeling chamber and hopper revolve through 360degrees and can be rotated to bring the discharge chute into the most convenient position relative to the waste pipe.

STANDARD EQUIPMENT
Supplied with one close mesh abrasive plate. Water inlet and waste outlet connections. Lifting hooks for peeling plate.

OPTIONAL EQUIPMENT
Waste Dilution Unit This allows the Peeler to be connected direct to most drainage systems. It directs a jet of water to the peeling chamber and through the waste pipe to speedily flush the peeling waste away.

Peel Interceptor If your drainage system is inadequate it is recommended that the peeling waste is filtered by a peel interceptor before it passes to the drain.

Air-Brake Unit Eliminates the possibility of back syphonage into the cold water mains requirement of some Local Water Authorities.

Flexible Waste Hose Interconnects between the peeler and the drain.

C56F - POTATO PEELER

Dimensions in mm

Specification

Model	C56F
Capacity (per load)	25 kg/ 56 lb
(per hour)	600 kg/ 1320 lb
Motor	1 ph
electrics	240W50Hz/ 1 ph/ 5A flc
	(operates from 13A socket)
	41 5V/ 50Hz/ 3ph/ 2.3 A flc
	Other supplies on request
Water Consumption	up to 6 litres/ min with Peel Interceptor
	up to 6 litres/ min with Waste Dilution Unit
Dimensions	121 x 81 x 88 cm
Weight	266kg (587 lb)

Because of continual improvements strict accuracy of description and illustration cannot be guaranteed.
