KPD 70 Paste Depositor

The Crypto Peerless KPD 70 Paste Depositor

Not enough pastry work to 'justify' a special machine for dispensing metered portions? Think again! It can be a worthwhile investment that more than earns its keep for the small floor space it occupies. The KPD 70 saves labour, cuts down wastage, ensures profitable portion control. Not for pastry alone - but for measuring pork pie fillings, burger dividing, producing dumplings, home-made faggots or portioning the 'scotch' for scotch eggs!

A helping hand with tiresome chores - a boost for new business opportunities.

Specification

Capacity:

1/2 to 6 oz. (14 to 170g) or 2 to 8 oz. (56 to 227g) with an accuracy of ± 2 drams (± 3.5 g). Hopper capacity 60lbs. (27kg).

Safety and Hygiene

A Makrolon guard is interlocked electrically with the hopper to prevent any access to the knife or the feed rolls while the machine is running. A 3' 0" (910mm) long conveyor delivers the divided portions away from the cutting area. All components in the food zone can be dismantled **WITHOUT THE USE OF TOOLS** as an aid to rapid and thorough cleaning.

Speed

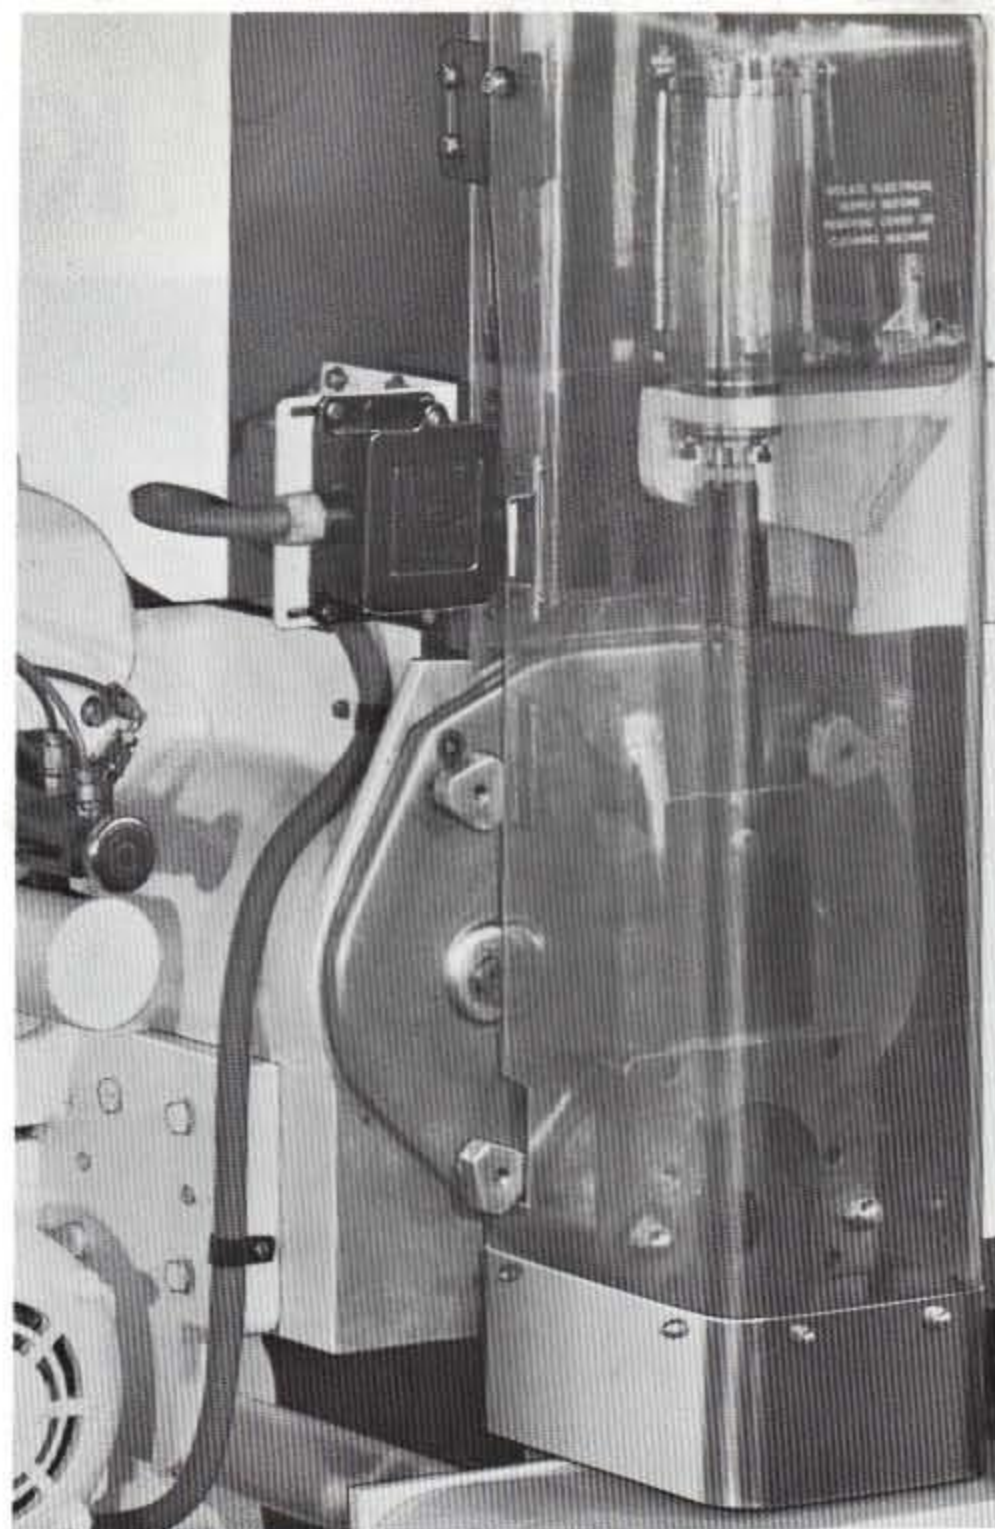

Standard deposit rate of 2100 portions per hour.

Motor

3/4 h.p. motor /gearbox unit, 400 /440V 50Hz 3 phase.

Compressed Air Requirements

5 cu.ft /min (140 litres) of clean dry air at 80 p.s.i. (5.5 bar). The KPD 70 is fitted with full air service equipment, comprising filter, regulator and lubricator as standard.

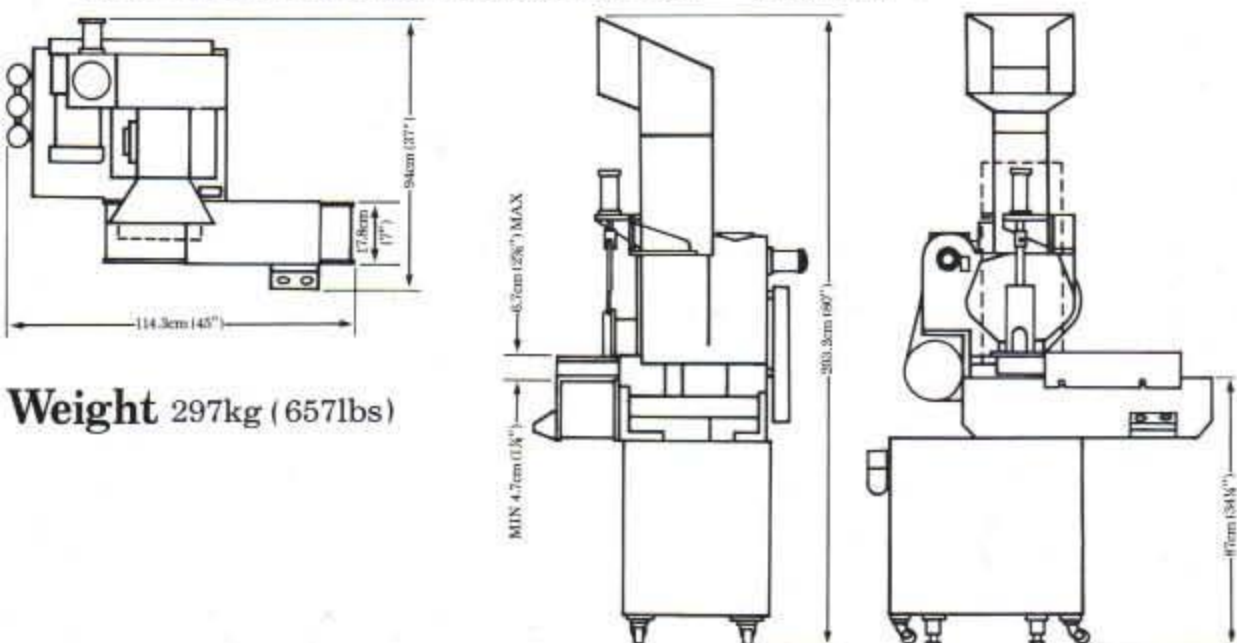

FULLY GUARDED HEAD

Versatile Operation

Front plate assemblies are easily interchangeable to vary the diameter or the shape of the extruded portion to match the foil or tin shape. A standard weight control unit is quickly and easily set. The hopper has been designed to avoid 'bridging' of the paste. The gentle action of the intermittent rolls and extrusion worm 'works' the paste as little as possible, so that shrinkage becomes less of a problem during subsequent moulding operations.

Size: ACROSS FRONT - 114.3cm (45") OVERALL HEIGHT - 203.2cm (80")
FRONT TO BACK - 94cm (37")
CONVEYOR HEIGHT FROM FLOOR - 87cm (34")

SIMPLE CONTROLS

QUICKLY STRIPPED FOR CLEANING - WITHOUT TOOLS
